

# VEERA ARVOLA

## 2D / 3D ARTIST

### PROFILE

I am a game artist with a background in graphic design and indie game development. I work in both 2D and 3D and take ideas from early sketches to polished, game-ready assets, with a style that ranges from cute and stylized to realistic and darker themes.

My drive is to create immersive, polished experiences for players, and to capture some of the magic I've felt while playing my favourite games.

Outside of work, I enjoy reading, drawing, knitting, playing video games, watching movies and spending time with my family.
